Pickleball Court Arcylotex Surfacing - New Concrete Construction - Factory back 3 year warranty

Contractor to supply all material, labor, & equipment to install surface Qty (2) concrete pickleball court(s)

Contractor will clean the court(s) surface by power washing the newly poured concrete to remove all residual contaminants in the concrete.

Once cleaned contractor will install (1) coat of a Concrete Preparer. This is especially formulated acid pre-treatment for previously uncoated Portland Cement Concrete that requires no after-wash.

Concrete Preparer is self-neutralizing, and prepares the surface to receive the Acrylic Coating System by forming a water-insoluble reaction in the surface of the concrete. This surface reaction creates a barrier to reduce the osmotic effect of water vapor and moisture which can create blisters and destroy the bond between the the Acrylic Coatings and the concrete substrate.

After the surface has been prepared contractor will install 1 coat of Acrylic Resurfacer & 2 coats of textured acrylic Acrylotex Sport color coat system. You may choose up to 2 different colors.

If no color has been selected below contractor will paint the entire court in a medium green color.

Inside color _____ Outside Color _____

After the color system has been and applied we will seal and stripe the lines in a highly textured white paint.

After all surfacing work has been completed contractor will install the new court net posts and net court net.

Thoroughly clean the job site and dispose of all related debris.

Control joints in the concrete will not be filled and will be visible after the color coatings have been applied.

Thank you for allowing us the opportunity to prepare this quote. We have included by attachment additional information on the company, and other information that we feel are important to making an informed decision when you select a qualified and reputable contractor to perform the work we have outlined. Anything that hasn't been included in our quote is specifically excluded. Any changes or requests can be requested in your client hub or by contacting our office.

By evidence of my signature, I affirm that I have read this quote carefully before signing and having done so and fully agree to be bound by all of the work outlined in the quote. Once the approved work quote is returned to us you will be sent our Contract Terms and Conditions via DocuSign for complete execution.

I am authorized to approve and sign this quote as acceptance to the projects scope of work. Any options presented in the work quote will either need to be accepted or rejected so we can finalize the contract details of all of the work to be done on this project.
