### January Update

Hello everyone: Happy January

The weather has not cooperated much. We have had a few good days. Dress warm to fish and golf. For the brave soles who venture into the pool, the water is a nice 84 – 85 degrees, but it is darn cold when you get out.

As everyone knows the Rules Compliance Committee job is out and about. It is not a fun job but one that must be done. They are making sure our community stays beautiful. Do not harass or berate them. Instead, you should thank them.

The hydro tank is going to be installed Friday, February 2, 2024. The water will be off from 7am to 6pm with a boil order to follow.

We had a line blow apart at the irrigation pumps. We have ordered the material to repair. The pumps are fine, it is just the piping. We have irrigation but the whole park is running on one pump.

We would like to thank these that run the organized golf in the mornings. They have done a good job of setting two golfers to a cart. Now, if we can get the skins players to help out it would be great. One person to a cart puts unnecessary pressure on our course. It costs a lot to maintain it and we are striving to keep the costs down. So, give us a hand and double up, you are all going to the same place anyway.

Lastly, please don't forget to fill out and sign the petition to combat the Siver Cypress project next door. We need as many signed petitions as possible to present at the meeting on February 22, 2024. Please turn into the office.

Thanks,

Board of Directors
